

MTH 337, Sample Week 14 Quiz

Fall 2022

You will have **15 minutes** to take the actual quiz.

1. Write a recursive function that solicits user input and checks to see if that input is a word of given length.
2. Write the same function using a while loop instead of recursion.
3. How do you determine if a letter is in a given word, and if it is, what position it is in?
