MTH 337 Sample Quiz 8

You will have **15 minutes** to take the actual quiz.

1. Create a dictionary whose keys are words (strings) and whose values are their lengths.

2. Write a function that takes a text file and returns the distribution of word lengths in that file (a list of the number of length 1 words, length 2 words, length 3 words, etc.).

3. Download Darwin's "On the Origin of Species" from Project Gutenberg using `Requests` and run it through your function from the previous question.
